Dear Patient:

Retina Specialists of Alabama, LLC provides services that range from medical retinal evaluations and diagnostic testing to laser treatment, microsurgery and ocular reconstruction.

Your initial examination and testing will be comprehensive. Since we endeavor to complete all tests and make recommendations at the time of your examination, please allow several hours for your visit.

Prior to your examination, your eyes will be dilated. For your safety, it is best to plan for someone to drive you home from our office. The dilation will also prevent you from being able to focus, and reading may be difficult for several hours following your examination. You may wish to take this into consideration in your work schedule.

In preparation for your appointment please assist us with the following information:

- ✓ Print, complete and bring the Patient Information Form and the Medical & Ocular History Questionnaire with you to the office the day of your exam. Please provide all information requested.
- ✓ If you would like us to file insurance claims on your behalf, be sure to bring all of your insurance cards with you. Please bring a picture ID: Drivers license, non-drivers license, etc.
- ✓ Please obtain any authorizations or referral approval forms that your particular insurance company may require prior to your visit.
- ✓ Bring all prescription medication and eye drops that you are current taking with you.

As our patient, we know that you're counting on our experience and training to help you make the best decision regarding your vision. We care about your well-being and we want to work with you to achieve the best possible result. While technology and clinical skills are important, we are also sensitive to the concerns and needs of each individual. At Retinal Specialists of Alabama, LLC, continuous professional care for each patient is assured through our team of physicians and technicians who will work closely with both you and your referring doctor.

If you have any questions prior to your appointment, or if you are unable to keep your appointment, please call our office: **(205) 933-2625** (local) or **(800) 292-8166** (toll free).

Thanks for your cooperation.
